APPLICATION FOR AMENDMENT OF POLLUTION CONTROL PERMIT PE-1816

THIS APPLICATION is to be filed with the Director, Pollution Control Branch, Parliament Buildings, Victoria, B.C. Any person who qualifies as an objector under section 13 (2) or (3) of the *Pollution Control Act* may, within 30 days of the date of application, or within 30 days of the date of publication in *The British Columbia Gazette* or in a newspaper, or where service is required, within 30 days of the serving of a copy of the application, file with the Director an objection in writing to the granting of a permit, stating the manner in which he is affected. Those who do not so qualify may file with the Pollution Control Board an objection in writing under section 13 (6), in the same manner and time period as described above.

Richard J. Pughe (Plant Manager), The Canadian Fishing Company Ltd., hereby applies for amendment, as described below, to Pollution Control Permit PE-1816, granted on December 19, 1973, which authorized the discharge of 12,000 imperial gallons a day of cooling water from a fish processing plant located

at Prince Rupert, B.C., to Prince Rupert Harbour. The site of the discharge is Waterfront Block E, Lots 2, 3, 4, and 5, and Waterfront Block F, Lots 1370 and 2527; City of Prince Rupert (the Atlin plant).

To amend Appendix 01-1 by deleting those words of item (a) 3 which read "Fish and dock Washing Discharge Discontinued," and substituting therefor the words "fish and dock washing, discharge slightly contaminated; maximum, 2,000 imperial gallons a day; average, 1,000 imperial gallons a day."

The purpose of the foregoing amendment is to add fish and dock washing effluent to the permit. Currently, herring are unloaded and frozen, and fish dressed by hand. This produces no effluent, except the fish and dock washing.

This application, dated on March 14, 1979, was posted on the ground in accordance with the Pollution Control Regulations.
